After School Program
3D Design

Create It. Design It. Print It!

In this hands-on after-school class, students in grades 2-5 will become digital designers as they imagine, design, and build their own 3D creations. Using easy-to-learn design tools, students will turn ideas into models while learning how designers and engineers think. Along the way, they'll practice creativity, problem-solving, and perseverance as they revise and improve their designs. Students will leave with new tech skills—and big ideas brought to life!
